

Get a unique-to-you breast health assessment

Do you know your risk for breast cancer or want to find out?

Participating in the WISDOM Study will give you personalized information for optimal breast health.

Join the WISDOM Study!

How it works

STEP 1 Enrollment

Enroll online at
www.thewisdomstudy.org

STEP 2 Data Collection

Complete a health history survey and a free, saliva-based genetic test at home.

STEP 3 Risk Assessment

We'll assess your breast cancer risk & provide personalized screening recommendations.

STEP 4 Annual Surveys

Complete yearly surveys & receive updated recommendations.

What you get

- Access to the top breast health experts in the country
- Advanced genetic testing that is not routinely available
- In-depth breast cancer risk assessment
- Online educational tool to learn more about your personal risks
- Personalized screening recommendations and risk reduction guidance
- The convenience of participating from the comfort of your home
- No cost to participate

Who can join

- You identify as a woman
- Are between the ages of 30-74
- You live in the United States
- You have not had breast cancer
